Dear Students/Parents/Guardians:

Welcome to the 2009-2010 District 196 Career Development Program!

Students who are enrolled in Career Development Courses will meet in the **Performing Arts Center at Eastview** during the assigned meeting time for the course on **Tuesday, September 8th**, the first day of school. During that time there will be a meeting with students to provide an orientation to the program. After that date, students will meet at the assigned class site during the scheduled class periods.

IMPORTANT REMINDER: Students will provide their own transportation to Career Development Courses. District 196 does **NOT** provide student transportation to Career Development Program Courses outside of Eastview High School. If you choose to park in the student parking lot at the school where your career development class is held, a permit is required to be purchased. NOTE: There are options for free parking at each school as well.

If you have any Career Development Program questions, please contact your counselor at 952-431-8914.

Best wishes for a great school year!

Sincerely,

Bruce Miller
Assistant Principal
