

# Mentor Programs

## **Mentor Seminar**

This course is designed to provide *access to professionals for students to better determine the career that best suits them*. With the instructor, you will formulate a personalized college and career plan. You will gain exposure to personality and career strength inventories. College selection and planning strategies are explored. Students design a project based on their field of interest. This course is designed to prepare students for **Field Experience** where you are placed with an individual career mentor in your field of choice. The class activities promotes independent learning skills and is designed for the college bound student. **Students have the opportunity to earn concurrent college credit.**

## **Field Experience**

Upon successful completion the seminar requirements, the students will be connected with a professional who serves as their mentor. During this time the student will be released four days per week, period 6 and 7. The student will observe, converse with and work closely with their mentor at the mentor's work site. A project will be defined and produced to add to the student's learning portfolio under the guidance of their mentor. Students will also continue to meet (one day/week) to continue their professional development and review their field experience learning. The course offers academic challenge and requires a high level of student responsibility. Students will provide their own transportation to the mentor site.

The Seminar is a double period for 1 quarter equal to 1.5 credits. This class is available Q1 and Q3. The Field Experience class is also a double period 1.5 credit course (periods 6 and 7) and may be registered for Q2 or Q4. These 2 courses may be taken concurrently or consecutively.
