Guiding Conversations on Digital Citizenship with Your Children

Thursday, February 16
6:30-8:00

Please join us on February 16th, 6:30 PM in the Highland Library to engage in conversation around digital citizenship and how it relates to learning and technology. We will discuss the District 196 definition of digital citizenship and how it is part of different components of learning.

Other topics that will be addressed during this evening are the digital citizenship areas of focus, COPPA* guidelines and what it means for you and your child, how to give guidance at home, and how to reach out for support. It will be an evening of collaborative learning and working together to support students to be positive citizens in the digital world.

**Children's Online Privacy Protection Rule- COPPA imposes certain requirements on operators of websites or online services directed to children under 13 years of age, and on operators of other websites or online services that have actual knowledge that they are collecting personal information online from a child under 13 years of age.*
